

IMPORTANT INFORMATION

Python 2.7 has been depreciated since January 2020. As a result, the NetworkGT toolbox for ArcGIS is no longer supported and only kept as an archive.

It is **highly recommended** to use the open source QGIS NetworkGT plugin that is available here -

<https://github.com/BjornNyberg/NetworkGT/wiki/Installation>

If the ArcGIS version is desired, it may require manual installation of the following modules.

python-ternary==1.0.4

scipy=1.0.1

pandas==0.23.3

networkx==1.8

xlsxwriter==1.0.4
